

# DISASTER FIELD MANUAL

**Available in English or Spanish. We can also help you design your own State Disaster Manual. One Complimentary Spanish version available.**

*The California Conference of Directors of Environmental Health Disaster Preparedness Technical Advisory Committee has prepared this manual as a field guide to assist environmental health professionals to respond to a major disaster. It provides an overview of the key response and recovery actions necessary to protect the health and safety of the public.*

This manual is intended to complement existing disaster preparedness plans and professional training. The manual is divided into the following major sections:

1. Structure Of Emergency Operations
2. Water
3. Food
4. Liquid Waste/Sewage
5. Solid Waste Disposal
6. Housing/Mass Care Shelters
7. Vector Control
8. Hazardous Materials
9. Medical Waste
10. Responding To A Radiological Incident
11. Debris Management
12. Warning Placards, Tables, Labels, Table of Weights & Measures

*The manual is 4" x 7.75" in size and the covers are constructed of 0.035 gauge polyethylene. The inside text is printed on waterproof and tear-resistant Kimdura paper.*

**Full Color D.O.T. Placard Inserts included.**

To order please visit our website at [www.ccdeh.org](http://www.ccdeh.org) under products or call **Sheryl Baldwin** to get a quote for designing your own State manual. (530) 676-0715 or [admin@ccdeh.org](mailto:admin@ccdeh.org).
